Pollock Industries

160 Watt 5 Volt Open Frame Medical Power Supply for "Patient Contact" Applications

| UNIT CODE | DESCRIPTION 160 Watt, 5 Volt, 5x3" PCB-Type, Open Frame, Single Output MOPP Level Medical Power Supply | |
|-------------------------|---|--|
| MED-RPS- G 160-5 | | |

| | SPECIFICATIONS | | |
|---------------------------------|---|---------------|--|
| AC Input | DC Output | Approvals | |
| Universal AC input 90 ~ 264V | +5VDC @ 0 ~ 20A (convection) +5VDC @ 0 ~ 30A (w/ 20.5 CFM) | The case CBCE | |

NOTE: There is a significant (≈30%) drop difference in performance when cooling by fan-less, natural convection (100~110W) vs. forced convection (fan) cooling (160W) with ≥20.5 CFM See following pages for details to ensure you get what you require.

Features at a Glance:

Medical safety certified, MOPP level Efficient (up to 88%)

Built-in active PFC function, PF>0.95; Remote sense function for 5~15V; Remote ON/OFF control; Power good and fail (PG-PF) signal output

Withstands 300VAC surge for 5 seconds Low leakage current <300µA / 264VAC

No load power consumption < 0.75W

Protection: Short circuit, Overload, Over voltage, Over temperature

Certificates: UL / CUL / TUV / CB / CE Safety standards: ANSI/AAMI ES60601-1.

Safety standards: ANSI/AAMI ES60601-1 TUV EN60601-1

EMC: Extensive including Class B for emmisions and Medical Level, Critera A, for immunity (see following pages)

MTBF: 230.5 K hrs min. MIL-HDBK-217F (25°C)

Weight: 0.70 lbs (0.37 Kgs)

Dimensions: 5.0 x 3.0 x 1.36 inches (LxWxH)

127 x 76.2 x 34.6mm (LxWxH)

The MED-RPS 160 Series was re-designed to comply with (MOPP level) international medical safety regulations so that they are now suitable for both "patient contact" and "non-patient contact" (MOOP level) medical applications.

The MED-RPS-"G" 160 version is slightly different from the standard model and is specifically enhanced to meet Green Mode energy-saving requirements regulated by Energy Star and EuP. Functions of the "G" version include P.G./ P.F. signal output, built-in remote sense and remote ON/OFF control and a 5V/0.6A standby output. Together with a "no- load power consumption <0.75W," MED-RPS-"G" 160 is suitable for use in "green mode" medical equipment or electric devices that need to meet that energy-saving requirement. MED-RPS-160 series are also suitable for any medical equipment requiring low leakage current.

MED-RPS 160 Series

■ Features :

- Universal AC input / Full range
- Built-in active PFC function
- Protections: Short circuit / Overload / Over voltage / Over temperature
- Free air convection for 110W and 160W with 20.5 CFM forced air
- Medical safety approved (2 x MOPP between primary to secondary)(Note.10)
- With power good and fail signal output
- Built-in remote sense function for 5~15V
- No load power consumption under 0.75W by PS-ON control (G model)
- Standby 5V@0.8A with fan, @0.6A without fan (G model)
- 3 years warranty

G: With 5Vsb & no load power consumption < 0.75 W Blank: Basic function (without 5Vsb)

RPS G - 160-12

8. The rated power includes 5Vsb @ 0.8A.
9. Touch current was measured from primary input to DC output.
10. Suitable for BF application with appropriate system consideration.
