The PS- RSP 100 series is a general purpose, "light industrial level," AC/DC, low profile (1U), single output, enclosed type, switching power supply with Power Factor Correction (PFC).

Functions include remote ON/OFF control, a constant current limiting circuit, short circuit, overload, over voltage, and over temperature protections. Users can make a (-5% ~ +10%) output voltage adjustment on a small rheostat on the terminal strip. The series meet requirements from UL, CUL, TUV, CCC, CB, and are approved for use in the European household appliance market. PS-RSP-100 is also CCC approved (China Compulsory Certification).

The PS-RSP-100 Series is widely used and applications include general automation and control systems, mechanical and electrical equipment, instrumentation, household appliances or systems that require an economical but reasonably efficient 100 Watt supply with a 1U low profile.
